# WHAT WILL SHE BELIEVE WHEN SHE'S 15?

Every time she turns on the TV, listens to her iPod, or logs on to Facebook, she hears different ideas about who she is, how she's supposed to look, and the person she should aspire to become. These messages are often in conflict, and many are seductive yet extremely harmful. What's a girl to do?

You can't protect your children forever, but you can help them separate the truth from the lies by teaching them to see the world around them through the unerring lens of God's Word. Provide them a clear biblical worldview with the **What We Believe** curriculum series.

Beautifully illustrated and written in a conversational style, the What We Believe series makes the study of God's Word exciting and memorable for boys and girls of all ages. Through engaging stories and creative notebooking, your kids will begin to develop an *unshakeable faith* and a sense of God-given purpose that will carry them through the teen years and beyond.

## Dear Friends,

When I look through each year's homeschool catalog with my family, I don't simply see photos of products or lists of item numbers. I see the books, puzzles, curricula, audio CDs, manipulatives, DVDs, games and other products and imagine how we could use each and every one of the items to help our children achieve his or her full potential in life.

I tell the children that in many ways, life is like a giant tapestry. Sometimes we can see each quilt square – like individual events in our lives – but it's difficult for us to picture everything pieced together so perfectly as the finished product. As we browse through the pages and choose products for our educational journey, it's like a quilter choosing individual pieces of material.

For me, each individual product offered is a part of the quilt of life. You see, each item is carefully selected to ensure that everything is family-friendly and that the products do not contradict a Biblical worldview. It is our goal to help you provide your children with the best education possible and enable you to establish a foundation of godly heritage for your family.

Each of us has a unique purpose. By providing such a prodigious variety of choices, you can choose products that will not only help your child master the usual academic subjects, but you'll also find numerous additional resources that will encourage your child to use the gifts God has given him, delve into the things that naturally interest him, and open doors to a world of learning that will never close to him.

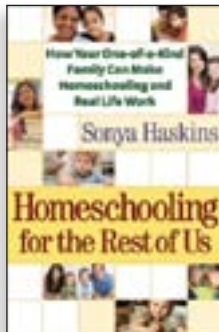

In other words, these are more than just products to us. We see each item as a resource that will help you weave the tapestry of your child's life. Each life is unique, so the combination of resources you use will be unique to your family and sometimes to each child. It is our goal to provide the tools necessary for you to choose the best materials possible for the precious individuals entrusted to your care.

As you enjoy this year's catalog, I hope your family might see how it can be so much more than just a compilation of products. Let it become something you refer back to throughout the coming months and look forward to every year as a tool that will help you enable your own children to achieve their full potential in all areas of life.

This biography, with more than 50 photographs, tells the story of C. S. Lewis's life and work, from his boyhood in Belfast, Ireland, where he and his brother created their first imaginary world in an attic hideaway, to Lewis's adult years as a renowned scholar and beloved author.

## **Eva's Story** **A Survivor's Tale by the** **Stepsister of Anne Frank**

*Written by Eva Schloss*

Many know the tragic story of Anne Frank, the teenage girl who lost her life in a concentration camp. But most people don't know about Eva Schloss, Anne's playmate and posthumous stepsister. Though Eva, like Anne, was imprisoned in Auschwitz at the age of 15, her story did not end there. Together with her mother, Eva endured daily degradation at the hands of the Nazis. She survived the prison camps, but it would be decades before Eva was able to tell her survivor's tale.
